

ATTENTION!

Dear friends!

Finally, the day has come, and we are announcing an additional closing round. In accordance with the White Paper, the additional stage of FOLK COIN sales will be held during the last week of the ICO.

Today, it is already safe to say that the ICO passed successfully. Out of 9,000,000 FOLK COINs, only 2,716,898 FOLK COINs remain unsold.

An additional round will last for 10 days. Tokens that are not sold during the ICO will be destroyed. This will ensure a deficit of coins upon entering the exchange, which will have a positive influence on the demand and will result in an increase in the cost of FOLK COIN.

Attention!

Good news for those who were hesitating to buy coins at a low price, or were not on time to do it for some reason.

Today, the FOLK COIN reached \$3. A minimal coin purchase comprises 5 FOLK

For 10 days, the remaining coins will be released at a special price:

upon buying 10 - 20 FOLK, you receive +10% coins as a gift
upon buying 21 - 40 FOLK, you receive +20% coins as a gift
upon buying 41 - 100 FOLK, you receive +30% coins as a gift
upon buying 101 - 150 FOLK, you receive +50% coins as a gift
upon buying 151 - 300 FOLK, you receive +70% to coins as a gift

Now, the most exciting bonus

Upon buying 301 FOLK or more, you receive +100% coins from the company

It means that the price is two times lower than the self cost.

Use this opportunity to purchase tokens at a very low price.

Yours,
FOLK-COIN Team
